

FAASTeam presents:

Airman Certification Standards (ACS) Explained (ID62)

The FAA and industry have partnered together to develop the replacement for the Practical Test Standards. The Airman Certification Standards bring substantial improvements to the certification process. This webinar will provide some background on how the ACS was developed and then explain how the ACS is used during both knowledge tests (AKA written tests) and the practical tests. Preregistration is required by visiting

<https://attendee.gotowebinar.com/register/5602409042711378433>

We will be offering additional webinars. You can expect to see additional invitations soon. All of the 'Airman Certification Standards (ACS) Explained' webinars are essentially the same presentations.

We are limited to 1,000 attendees per webinar. If you attempt to register and see a message that the webinar is full, please try another webinar offering. All of our webinars are listed at FAASafety.gov. You may also try registering a few hours or minutes before your preferred webinar as some people will cancel their registrations.

Directions: Preregistration required at
